Maya Chen

Senior Frontend Engineer

maya.chen@hey.com | (415) 555-0192 | linkedin.com/in/mayachen | github.com/mayachen

PROFILE

Frontend engineer with 7 years of experience building design systems and data-heavy interfaces used by millions. Shipped the component library behind two Series B products and cut page load times by 40%+. I care about fast, accessible UI that teams can build on without fighting it.

EDUCATION

University of California, Berkeley 2018

B.S. Computer Science

EXPERIENCE

Senior Frontend Engineer 2022 - Present

Brightline | San Francisco, CA

- Led the design system rewrite (React + TypeScript) adopted by 6 product teams, cutting new-feature UI time from 2 weeks to 3 days
- Cut Largest Contentful Paint 43% via route-level code splitting, image pipeline rework, and bundle analysis in CI
- Shipped a WYSIWYG report builder used by 90k monthly users, with keyboard-first editing and full screen-reader support
- Mentored 4 engineers; instituted the accessibility review that took the app from 61 to 98 Lighthouse a11y score

Frontend Engineer 2020 - 2022

Parcelly | Remote

- Built the real-time tracking dashboard (React, GraphQL subscriptions) handling 2M+ events/day at p95 under 100ms re-render
- Migrated 140k lines of JS to TypeScript incrementally with zero downtime, enabling dead-code elimination of 18% of the bundle
- Introduced Playwright e2e coverage on critical flows, dropping regression incidents from 3-4 per quarter to under 1

Software Engineer 2018 - 2020

Fable & Co. | New York, NY

- Shipped the customer-facing storefront refresh for a 400k-user ecommerce platform, lifting mobile conversion 11%
- Owned the checkout flow rewrite; reduced cart abandonment 8% by cutting steps and adding inline validation

RESEARCH PROJECTS

Gridworks 2023 - Present

Open Source - 4.2k GitHub stars

- Headless React data-grid library focused on accessibility; used in production by 30+ companies
- Virtualized rendering keeps 100k-row datasets at 60fps with a 12kb gzipped core

Typefish 2021

Dev Tool

- CLI that generates TypeScript types from live GraphQL APIs; 1.8k weekly npm downloads

SKILLS

Languages: TypeScript, JavaScript (ES2023), HTML, CSS

Frameworks: React, Next.js, Vite, Node.js, GraphQL

Craft: Design Systems, Accessibility (WCAG 2.2), Performance Profiling, Testing (Playwright, Vitest)

Platform: CI/CD, Storybook, Figma, AWS

CERTIFICATIONS

- AWS Certified Developer - Associate (2023)
